A biography of President John Tyler is to be prepared by his son, Lyon Gardiner Tyler. Mr. Aubrey de Vere's new volume of poems is a

versification of Irish legends, entitled "The Foray of Queen Meane." An illustrated volume dealing with eclebrated American caverns has been prepared by H. C. Hevey, and will be published next month by Robert

Menotti Garibaldi is said to contemplate the publication of his father's memoirs, which were written by the old Italian here with the intention of con-

tradicting the many silly stories-" tante scischezze" as he himself termed them-told about him. Mr. Longfellow's last volume, "In the Harbor," will come from the press of Houghton, Mifflin & Co. this week. It is to contain a number of poems

rever before printed, as well as the verses published since the appearance of the last collection. Colonel Higginson's collection of essays under the title of "Common Sense About Women" has fallen under the talons of The Saturday Review, with what result may easily be conjectured. The satirical

skips and dances of the critic about the unhappy book are calculated to fill the impartial reader with awe and amazement. Frau Kammerer, a born Klopstock and niece of tile "nivor of the " Messias," has just died at Metz at 1 - 'ge of ninety. She was cleven years old at the I'v's of Klopstock's death, and up to the last

of her famous uncle. Hei ne's only and much-leved sister, the "Lotte to whom he addressed that dainty " Idyll ":

"My child, we two were children, Two children, bright and gay;" is still alive at the age of seventy-eight. She has a great deal of her brother's brilliancy and eleverness. He often submitted his compositions to her censorship before publication.

The next publication on the list of Charles Scribner's Sons is W.A. Baillie-Grohman's "Camps in the Rockies," a narrative of life on the frontier and of sport in the Rocky Mountains. The author of this picturesque book has purchased a comfortable estate in the West and has proclaimed his intention of becoming an American citizen. His new book will consequently be a copyright issue.

There is a pathetic and poetical story told about James Thomson, the author of "The City of Dreadful Night." In his youth he was in the British Army, and was betrothed to a beautiful girl, from whom the demands of military life temporarily sepprated him. One day he received news of her slight illness, and on the next came without further warning the news of her sudden death. The young poet fell senseless to the ground, and for many weeks lay dangerously ill. He arese a reckless and defiant man, careless of life and fortune. George Ehot once wrote to him a note of hearty admiration for his best-known poem.

John Bright's admiring mention in his Birmingham speech of the Scotch peasant authoress, Janet Hamilton, recalls the strange fact that this clever woman never had any education except that derived from reading a few books, chiefly Shakespeare, whose works she knew almost by heart. She never had a lesson in grammar, yet she wrote essays in English absolutely faultless. The estimation in which she was held in her native land is shown by the enthusiasm which moved 60,000 persons to attend the unveiling of her monument in

That cynical and pessimistic novel, "Democracy," continues its successful career in England. The Pall Mall Gazette goes so far as to call it perfect from a literary point of view, the rather weak and spiteful caricature of the scenes with the President and his wife constituting, perhaps, its one blemish. "There is," adds the critic, "no tiresome over-analysis such as spoils the triumphs of Mr. Henry James. The characters, slightly sketched to begin with, grow in depth and significance with every scene. There is no waste of power, no opportunity lost."

New Unblications.

CLOSING PRICES PHILADELPHIA STOCKS.

Reported by JOHN H. DAVIS & Ch., 17 Wall-

THESDAY, June 27-P. M. The Lake Shore and Michigan Southern and the Michigan Central Railroad Companies to-day published their usual half-yearly statements. Of course the results of the business for the greater part of the month of June are estimated. The Lake Shore Company's statement as made, not including the half-yearly proportion of the annual dues to the sinking fund, shows earnings over the fixed charges, for the six months to end on June 30, of \$1,122,409, or 2.27 per cent on the stock. The quarterly dividend paid on May 1 required of that sum \$989,330, leaving for the quarter to end on June 30, \$133,079, or, if the sinking fund is deducted, only \$8,079. The company, how-ever, declared a dividend of 2 per cent (\$989,330) payable on August, 1, 1882. In the following comparative statements the six months' proportion of the sinking fund is added to the fixed charges as given in the semi-annual statements of the company; but it is proper to add that the comshow that one-haif of the fixed charges of each year, including the sinking fund, was respectively \$1,604,618 and \$1,594,752, or about \$100,000 greater than appears in the following statemen for the six months ending June 30, Mr. E. D. Worcester, treasurer of the company, explains the statement and the declaration of the present divi-

dend, under such conditions, as follows:

The half year has been exceptionally peculiar in its conditions. Buring the first part the tonnage was maintained, but the comest that existed between the trunk lines produced unprecedentedly low rates, and a settlement of the disputed questions was reached just at a time when there occurred a marked dimination in the volume of traffic. This diminution was due to the deficient crops of the previous year, the deficiency having proved to be greater than had been estimated. At the close of the 'tailf year the onlook is clear for an active and healthy business, and a return to fairly instruction will expire with the present month. The line and its largely increased equipment and other facilities are in the best possible condition, and prepared to do the large amount of business which we have how reason to believe must come to it even with full allowance for the effect of new lines) at prices which will not be subject to the disregard consequent upon an active railroad contest. dend, under such conditions, as follows:

the stockholders, to make any change in the rate of quarterly dividends. The following are the comparative statements for

Jan. 1 to June 30— 1880, 1881, 1882, 1882, 200 peraiting expenses and 5,053,284 5,059,381 5,285,164 5,403,791 \$4,013,009 \$3,669,762 \$2,622,409 1,505,600 1,487,000 1,625,000 Balance for stock \$2,508,609 \$2,182,762 \$997,409 biridend paid May 1, 1882, for first quarter. 989,330 pividend declared payable August 1, 1882, for second quarter. 989,330 \$1,072,600 980,330 #1,978,660 #981,251 Desciency for the six months ... Net earnings \$1,700,000 \$1,295,000 \$927,500 Deduct interest and rentals 840,000 853,000 900,000 ... \$860,000 \$442,000 \$27,500 Mr. C. Vanderbilt, treasurer of the Michigan Central Company, gives practically the same reasons for the unsatisfactory showing as does Mr. Worcester for the Lake Shore Company, and adds:

The facilities of the line and its equipment bave been materially increased and improved, and all is in complete condition. With very encouraging indications for the general crops of this year, those for that of Michigan are particularly so, and it is believed that the disputes which so affected the result of the present half year have been adjusted upon a basis practically permanent.

The official report of the railway shipments of the present half year have The official report of the railway shipments of flour, grain and provisions eastward from Chicago for the week ended Saturday, June 24, shows 379

The total movements of flour and grain at the principal points for the week ended June 24, 1882, and since January 1, for years 1881 and 1882, were as follows: tons more than for the preceding week of this year and 54,260 tons less than for the same week of 1881. The totals were 18,350 tons for the week

ending June 17, 1882, 18,729 tons for last week, and 72,989 tons for the same week of 1881. Compared with the preceding week of this year, the gain of 379 tons is made up by a loss of 2,494 barrels of flour, and gains of 67 tons of grain and 587 tons of provisions, and was distributed to the various systems as follows: Vanderbilt system (Lake Shore and Michigan Central), 298 tons gain; to the Pennsylvania system (Fort Wayne and Pan-Handle), 511 tons loss; Baltimore and Ohio, 669 tons gain, Grand Trunk, 71 tons loss. Compared with the same week of 1881, the decline of 54,260 tons in shipments is made up by decreases of 44,735 tons of grain, 2,849 tons of provisions and 66,813 barrels of

The following shows the quantity of flour, grain and provisions carried by the various roads eastward from Chicago during the week ended Saturday, June 24, 1882, and also the total quantities carried for the corresponding week of last year:

	Flour, bbla.	Grain, tons of 2,000 fb,	Provisions, tons of 2,000 fbs.	Total tons.

The stock speculation to-day, although small in transactions, was active in fluctuations. The opening was made quietly, but with no little irregularity in prices. First figures for some stocks were higher, and for others were lower, than yesterday's last prices. Louisville and Nashville, Denver and Rio Grande, and Central of New-Jersey were specially active and made the widest fluctuations, and all of them closed at fractions higher than their first prices. The trunk-line stocks seemed to be unaffected by the semi-annual statements, it having been before expected that the Lake Shore would declare a 2 per cent dividend and that the Michigan Central would declare none. The coal stocks were quiet with small fluctuations. The figures were sometimes strong and sometimes weak, the Omahas having more of the latter quality than of the former, and the Southwesterns failed to present any features which were particularly their own, if we except the Wabashes, which were weak all the time. In a word, the whole market was dull yet feverish and quickly responsive to any important orders either to buy or sell. If to buy, prices advanced 12 per cent; if to sell, they declined 12 a 13 per cent. The best rally of the day occurred all the time. In a word, the whole market was dull 12@ 34 per cent. The best rally of the day occurred at about 1:30 p. m., on, as was alleged, a rumor that the strikers from the Pennsylvania Railroad's depots had returned to work. Before the end, how-ever, a heavy and unsettled feeling prevailed, and prices drooped to about the lowest of the day, and the market closed weak.

features; business was as dull as usual, and prices are only steady at unchanged quotations, as fol-

Among State bonds there was an active movement in Lousiana consols at prices ranging from 69^{1}_{2} up to 71. Tennessee 6s rose from 54 to $55^{1}_{4}@55$, and Missouri 6s 1889 or 1890 sold at 114. There were transactions in city bank stocks. Railroad bonds were even more than usually dull.

Of Erie second consols there were sales only of

\$55,000 at 93½2£9½æ935s. Missouri, Kansas and Texas general 6s were exceptionally active and strong, selling at 8114 @ 8214 @ 8218 against 80, the last previous sale: the second consols were steady at 62. Boston, Hartford and Erie firsts declined % to 50, and Canada Southern firsts were off 34 at 95. Metropolitan Elevated firsts were weak and fell off 4 to 1034, and Chicago, St. Loui and New-Orleans 5s were 1 per cent lower at 104. Wabash new 7s, with three months accumulated interest, sold at 944@9442. Denver and Rio Grande firsts and consols each were 4 lower at 1125,@1123, and 10442 respectively. Kansas Pacific consols were 14 lower at 10212, and Texas and Pacific firsts, Rio Grande division, were steady at 8318@83. New-Orleans and Pacific declined by to 86, and Fort Worth and Denver firsts were off 14

to 86, and Fort Worth and Denver firsts were off \(^1\) at 95\(^1\)2.

The Sub-Treasury to day gained \(^3\)1.663.400 on balance, made up by gains of \(^3\)1.530.323 coin and \(^3\)133.087 currency. This makes the total gain on balance since since last Friday \(^2\)2.896.321. The day's transactions covered: Receipts \(^3\)3.72.576, including \(^3\)1.000.000 gold coin from the Philadelphia Mint; payments, \(^3\)1.653.166; currency balance, \(^3\)5.94.931; coin balance, \(^3\)9.50.504. The local money market was active, and 4 per cent was the low as well as the prevailing rate fo call loans at the Stock Exchange. There was at flurry, however, that carried rates up to 9 per cent. Later the rate declined to \(^4\) per cent. This was the first time since the partial repeal of the usury law that money has commanded more than 6 per cent, and besides the satisfaction of being able to obtain money at 7\(^3\)9 per cent instead of than 6 per cent, and besides the satisfaction of being able to obtain money at 720 per cent instead of a commission added to the legal rate, which at the lowest was the equivalent of 11½ per cent per annum, both lenders and borrowers seemed to be pleased with the fact that they could pay and receive the market value for money without pain of being indicted as criminals. The domestic exchanges on Yew-York are as last quoted.

The Clearing-House statement to-day is as follows: Exchanges, \$104,899,256; balances, \$4,316,354.

A stronges, \$104,800,200; Balances, \$4,316,384.

The United States Treasurer at Washington to-day received \$224,000 National bank notes for redemption. The customs receipts were \$673,600, and the internal-revenue receipts were \$673,600. \$271,086.
The foreign exchanges continue to be dull, and

The foreign exchanges continue to be dull, and rates are only stendy at quotations; for business as follows: Bankers bills, \$485\(^4\) and \$488\(^4\) for long and short sterling respectively; 5.19 and 5.15\(^6\) for francs; 94\(^7\) and 95\(^6\) for reichmarks; and 40\(^7\) and 40\(^7\) for guilders.

In London British consols opened off \(^1\) at 99 7-16 for money and 1-16 lower at 99 9-16 for account, but later recovered to 99 9-16 and 99\(^6\) respectively. United States bonds were quoted higher; the continued 5s at 103\(^6\) and the 4s at 122\(^1\) and later at 122\(^1\) American railways opened lower, and afterward, on the 11 oclock quotations from New-York, recovered.

higher: the continued 5s at 103½, and the 4s at 122½ and later at 122½. American railways opened lower, and afterward, on the 11 o'clock quotations from New-York, recovered. Bar silver was 1-16d, higher at 51 15-16d, per ounce, At Paris, French 3 per center rose from \$1.15 to \$1.27½ and declined to \$1.17½, and sight exchange on London was higher at 25.17 francs to the £. A Berlin dispatch says that the Imperial Bank of Germany during the week lost specie to the amount of 2,300,000 marks.

The gross earnings of the following railroads are reported:
